PROFESSIONAL SUMMARY

Results-driven software engineer with 8+ years of experience designing and shipping scalable backend systems, distributed services, and cloud-native applications. Proven track record of leading cross-functional teams, reducing infrastructure costs, and delivering high-availability products used by millions of users. Passionate about clean architecture, mentorship, and data-driven decision making.

PROFESSIONAL EXPERIENCE

Senior Software Engineer / Tech Lead

Jan 2022 - Present

Nimbus Cloud Systems Inc. — San Francisco, CA

- Led a team of 6 engineers to redesign the core billing microservice, reducing latency by 42% and cutting monthly cloud costs by \$180K.
- Architected an event-driven pipeline using Kafka and Go, processing over 2M transactions per day with 99.99% uptime.
- Introduced CI/CD best practices with GitHub Actions and Terraform, reducing deployment time from 45 minutes to 6 minutes.
- Mentored 4 junior engineers, 2 of whom were promoted to mid-level within a year.
- Partnered with Product and Design to launch a self-serve analytics dashboard, increasing customer retention by 15%.

Software Engineer II

Jun 2019 - Dec 2021

BrightPath Technologies — Austin, TX

- Built and maintained RESTful APIs in Python (Django, FastAPI) serving 500K+ daily active users.
- Migrated a monolithic application to a microservices architecture on Kubernetes, improving deployment independence across 5 teams.
- Implemented automated test suites (pytest) that increased code coverage from 61% to 92%.
- Collaborated with data science team to integrate a recommendation engine, boosting conversion rate by 9%.

Software Engineer

Aug 2017 - May 2019

Vertex Analytics — Austin, TX

- Developed internal tooling for real-time data visualization using React and D3.js.
- Optimized SQL queries and database indexing, reducing average query time by 35%.
- Participated in on-call rotation, resolving production incidents within SLA 98% of the time.

EDUCATION

B.S. in Computer Science

Aug 2013 - May 2017

University of Texas at Austin — Austin, TX

GPA: 3.8/4.0 | Relevant coursework: Data Structures, Distributed Systems, Operating Systems, Machine Learning

TECHNICAL SKILLS

Languages: Python, Go, JavaScript/TypeScript, SQL, Java

Frameworks: Django, FastAPI, React, Node.js, Spring Boot

Cloud & DevOps: AWS, GCP, Docker, Kubernetes, Terraform, GitHub Actions
Databases: PostgreSQL, MySQL, Redis, MongoDB, DynamoDB
Tools: Kafka, Jenkins, Datadog, Grafana, Jira

SELECTED PROJECTS

OpenTasker — Open-source task orchestration engine

- Built a lightweight distributed task queue in Go with a plugin system, adopted by 1,200+ GitHub stars.
- Wrote documentation and onboarding guides that grew the contributor base to 30+ developers.

Real-Time Chat Platform (Side Project)

- Designed a WebSocket-based chat app supporting 10K concurrent connections using Node.js and Redis pub/sub.

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional (2023)
- Certified Kubernetes Administrator (CKA) (2022)
